

CANDIDATE FOR MAYOR · CITY OF MARINA · 2026

I have dedicated more than 15 years to serving the public as a Respiratory Care Practitioner, where teamwork, sound judgment, and accountability are essential every day. A proud 15-year member of SEIU and former Union Steward, I have long advocated for fair wages, safe working conditions, and the rights of working families through the power of organized labor. Since moving to Marina, I have become deeply involved in the community through nonprofit leadership, volunteer service, and civic engagement, earning a reputation for showing up, listening, and working alongside residents to solve problems.

I believe local government works best when it is transparent, fiscally responsible, and focused on strengthening the local economy, supporting working families, and delivering the quality public services residents deserve.
